QUALITY POLICY

Norpro is committed to maintaining an effective Quality Management System (QMS) which has been carefully planned, developed, documented and implemented as an integral part of the company operations and meeting the company objectives and targets. By establishing a clear definition of customers' expectations, we strive through consistent processes to meet and/or exceed them. We adhere to all applicable standards and customer specific requirements and improve our processes, services and people through continuous improvement based on agile and lean principles.

Steve Tarchuk

Chief Executive Officer
